

The preferred
TradeNet 4.0 Software Provider
because we understand what really matters

USER-FRIENDLINESS

The NO. 1 consideration in all software purchases.

EASY-TO-USE & CUSTOMIZABLE features that streamline your workflow and cut down your working time to meet the highly-sensitive dateline. Built your own personalised menu bar and customised your shortcut keys to frequently used functions.

SEAMLESS INTEGRATION

with commonly used applications

Capable of interfacing with

Microsoft Office, Adobe PDF, third party Fax & Mail tools and exporting to HTML / text formats.

BUSINESS OPTIMIZATION

with time-saving features and database security

Developed on Microsoft .Net Technology. Kewill-IPACS offers customers increased database stability with NO fear of waiting when online traffic becomes congested. What's more, Kewill-IPACS TradeNet 4.0 has open interfaces for integration to your back-end systems and extended trading and Cargo Community Systems to prevent double keying of data.

ALL-YEAR-ROUND REAL TIME SUPPORT

Get customised and hands-on training that equips your staff on how to use the user-friendly TN 4.0 PLUS the assurance of 8 full-time, specially-trained Kewill-IPACS consultants who will provide real time support to customers when they need help!

GET THE **BENEFITS** OF TRADENET 4.0 LAN & ENTERPRISE VERSION

- > Cost effectiveness for multiple users within the same company
- > Centralised database that can be shared
- > Single reporting for more analytical assessment
- > Better control with users profiling and access rights
