

NEWS RELEASE

KEWILL TAPS INTO MIDDLE EAST TRANSPORT & LOGISTICS MARKET THROUGH CHANNEL PARTNER AGREEMENT WITH INFOTOUCH

13 February 2008 – Singapore and Dubai – Kewill-IPACS, part of Kewill Systems Plc – a leading provider of global solutions for the dynamic supply network, announced the signing of a channel partner agreement with InfoTouch, an interactive Information and Communication Technology company based in Dubai, United Arab Emirates (UAE).

The Channel Partner agreement signifies the entry of Kewill's Global Trade Management solutions into the Middle East market. Under the Channel Partner agreement, InfoTouch will assist in distribution and account maintenance of Kewill-IPACS Global Trade Management solutions for the transport & logistics industry in the Middle East and both companies will continue to collaborate on sales and marketing efforts.

With the agreement, international and home-grown transport & logistics service providers based in Middle East will benefit from the availability of leading global supply chain solutions in the market but with maximum localised support and understanding of the local business market.

“With high growth in the freight sector in the UAE, it is important for Kewill-IPACS to have representation to further grow our business in the Middle East and also to support our customers' expansion in this region,” said Mr Wong Sing Lam, CEO of Kewill-IPACS.

“InfoTouch meets all the key criteria which we look for in a partner – competence, expertise and highly committed to invest together with us in the market.”

“Having a wealth of industry knowledge and mastery of the logistics processes, Kewill-IPACS' solutions empower their clients to harness the power of advanced technology to enhance their business processes and performance,” said Mr Amitabh Tewari, CEO of InfoTouch.

“InfoTouch consider this as a major USP and value adds to its suite of solutions for the logistics and Transportation industry in the UAE, which is undergoing magnanimous growth at the moment.”
